City Fathers Meet

The regular fortnightly meeting of the Blairmore council was held on Monday night; the mayor and Councillors Drains, Briscoe, Sinclair, McLeod and Hinds being present.

The minutes of previous meetings were read and approved, after which the following accounts were read and ordered filed subject to the approval of the different committees: Joseph Montalbetti \$10.00, H. G. Bigelow \$25, Medical Health Officer \$125.00, C. P. R. \$12.52, Rocky Mountain Cement Co. \$10.00, L. Scott \$10.00, A. E. Nichols \$9.00, Pelletier Lumber Co. \$24.40, J. R. Report of lights out for the month of August was ordered filed.

Notice of Court of Revision was ordered filed.

By Law No. 28, to provide for the borrowing of \$3,400,000 from the Union Bank of Canada on the credit of the town until such time as taxes can be collected, was read a first, second and third time and finally passed.

Councillor Drains asked if anything definite had been done in connection with the winding up of the estate of the late Peter Smith.

Councillor McLeod stated that the deed was in his possession and that Mr. Pelletier, from whom Smith agreed to purchase two lots in the Pelletier addition, had promised to allow one lot to go over to the creditors of the deceased.

There were several local accounts against the estate, and it was thought advisable to have the matter in the hands of Councillor McLeod, who promised to endeavor to dispose of the lot and divide the proceeds proportionately among the different creditors.

Councillor Sinclair asked why it was that a number of accounts had been allowed to lie aside since contracted quite a while ago, instead of being brought up for approval at previous meetings. The secretary informed the councillor that only a few of the accounts had been so treated.

The mayor reported on his mission in attendance at the convention of the Union of Alberta Municipalities at High River. He informed the council that in connection with the poll tax, the appeal of the town received the unanimous endorsement of the convention, it being apparent to them that as far as some of the prairie towns were concerned conditions were hardly as urgent in the mining camps where the popula-

The meeting adjourned at 10 p.m.

John Keay, former inspector of customs for the province of Alberta d'Thierry also a prominent citizen, has recovered his failing health. His recovery was entered for his recovery since early in August.

New Cement Plant

The new plant of the Edmonton Portland Cement Co. was formally opened and set going on Saturday, August 30th, when upwards of one hundred shareholders and others from Edmonton who are interested were present.

The visitors were shown over the works by Mr. Chester Pegg, manufacturing superintendent.

The Edmonton Bulletin has the following to say regarding the new plant:

A strictly local enterprise, limited to the extent of 90 per cent by local capital, and meeting a condition of tight money just at the most critical point in its career—namely, just before completion—it might have been thought that at some point the machine or the condition that was "just as good and cheaper" would have been used instead of the "very latest and best." It is naturally to expect that the management, that there has in no case yielded to that argument and have been successful in installing a plant that from first to last is complete in every detail necessary to the economical and profitable manufacture of an article of prime necessity in this district above all others in Canada, and yet which is not manufactured economically, least of all at Blairmore.

The management is not only weighed automatically while being placed in sacks, but the sacks are tied by machinery and are filled from the bottom after being tied, is a striking instance of the up-to-date character of the plant.

At present the clay is handled by pick and shovel, but next season it is intended to install a locomotive crane and orange peel bucket for loading from the clay pits and to use dump cars, so that unloading will also be automatic.

The dimensions of the buildings are as follows:

Clay storage building 30x140 feet.

Drying building 24x130 feet. Marl receiver 31x72 feet.

Storage building 43x195 feet, capacity 80,000 barrels.

Main storage building 85x200 feet, 20 bins of 4,000 barrel capacity each.

Coal storage building 35x112 feet.

Power house 42x78 feet, containing four Goldie & McCullough water tube boiler.

Boiler stack is 170 feet high and 7 feet in diameter. Coal consumption 230 tons per day.

The engine room adjoining the boiler house is 35x20 and contains one 1,000 k.w. turbo generator, two 40 k.w. direct connected engine driven excitors, indicating and recording instruments, meters, automatic switches, etc.

An elevated tank with a capacity of 50,000 gallons has been erected for use in case of failure of the pumps. The tank gives 80 pounds pressure and the pump 160 pounds.

directly connected with the manufacture of cement is a workshop and storeroom of brick and steel 40x200 feet, containing a complete wood-working department, also a complete模压 machine shop.

There is also an isolated building for oil storage with a capacity of 200 barrels.

At the present time the mill is turned out daily and the amount of cement produced daily fits the equipment capable of manufacturing up to 1500 barrels when in full swing. It is hoped after a while to add some further equipment in order to increase the output to 2,000 barrels per day.

Maribor is a brand new town, so young having been established only a few years ago. At the present time the population is about 300, 125 of whom are employed in the new plant.

The prospects for the future of Maribor are exceedingly bright, as the raw materials for the manufacture of cement and other clay and stone products are very extensive. Coal in great quantities is found at easy

SHE STOPPED THE PAPER.

The Editor Didn't Know Why, but Failed to Give Instructions.
She came down the street three times in a time and called at the newspaper office like a whirlwind. She wanted no ceremony, but wildly asked:

"Is this the printing office?"
"Yes, it is."

"I want to stop my paper."

"All right, madam."

"Stop it right away!"

"I'll do it," we replied, making a blue line through her husband's name on the subscription list.

"And that will give you some time and help to do the square thing next time and not to slight people just because they are poor. If someone rich takes half as much as you do, there is an awful hurry to put it in the paper and make it out an angel, but when poor people do it, it's all right." A word about it, even if it is the poorest child born. That's what I'm stopping the paper for. This sort of a letter goes to every paper in the United States."

And he went out of the office as mad as a wet hen—Kaw City (Oklahoma) Tribune.

What Became of Her?

"Want more string?" said Mrs. Hopper, as she drew her arms out of the wash tub. "Anybody might think I was made of string, the way you go on. What a mess! I've got a piece of string only yesterday. Can't think what you do with all the string."

"Well, mother," said Dick, "I know what I am with all the string. First you took half of it back again."

"I don't want no impertinence. If parents are going to be done up whose faults that?"

Then Tom took half of what was left to go fishing for trout backs in the end of the string.

"Tons' your older brother, and it's your place to give him way to go."

"I've got a brother, but I don't have much, and father took half of that to mend his braces what he broke through laughing at the motor accident, and sister and them girls what were left after the hair buck."

"All out what you do with all the rest?"

"All the rest of it! Why, there wasn't but nine inches left to myself, and I had to give it to a telephonist of them!"—London Strand.

There's No Use Starting.

A farmer was approached by a man, who asked for something to eat and a night's lodging. It was pretty well known that the man was all alone, so the farmer invited him to his supper and sent him to the barn to sleep, agreeing that he was to find him in the morning in time to work out his "keep."

About half past seven in the morning the farmer found him still asleep.

"What's all this, boss?" said the hobo, rubbing his eyes.

"Time to get up and work."

"I'm doing all right."

"We're going to reap."

"Keep what?"

"Pants."

"Are they wild oats, boss?"

"No; of course not. Why?"

"Well, if they isn't wild oats why do you want me to keep them in the dark?"—Liplock's.

PIMPLES SPREAD FROM ARMS TO WHOLE BODY

Also on Face. Began to Ooze Water-like Matter. Torture of Itchiness. Pimpled Festered and Enlarged. Cured in Two Weeks, Ticks to Cuticura Soap and Ointment.

Mrs. Elin, Inst. Muncy, Ontario—I suffered from skin troubles for two months before I came to you.

The trouble started from itchiness on the back of the neck, which gradually spread over the body and became extremely sore. They festered and scabbed, then opened and lets were formed, which oozed a watery fluid and gave great irritation.

THE ONLY SURE CURE.

WHEN you can't get her out of your head, and you hate what you have to say, then you have only one way to get rid of her. You have only one way to get rid of her. There's only one way to get over it—the next time you see her—propose.

When you think what you're called to the next time you see her.

And when you hurry through: When all you can see is the time to quit, and you know you're all alone, there's only one way to get over it—the next time you see her—propose.

A Temptation to a Trout.

A tomahawk crested many years ago to the memory of a trout may be seen at Blockley, Worcestershire. The trout is mounted on a post, and the inscription reads: "I am not a fish story." The following text upon the stone tells the interesting tale:

Liquor License Ordinance

APPLICATION FOR WHOLESALE LIQUOR LICENSE

Application has been made by the Fertile Mountain Supply Company, Limited, for a Wholesale Liquor License in Blairmore, Alberta, and it is now on file (3), Block seven (7), Lethbridge, Alberta.

This application will be considered by the Board of License Commissioners at a meeting to be held in the License Branch, 100 King Street, Victoria, B.C., on Thursday, October 3rd, 1913, at 10 o'clock A.M.

DATED AT EDMONTON this 4th day of September, 1913.

J. R. CLADY,

Deputy Attorney General.

Regina to Get New Customs Building

Ottawa, Ont., Sept. 9.—The purchase of a site for a \$200,000 customs building in Regina was authorized by an order-in-council passed yesterday. The building will be located at the southeast corner of South Railway and Cornwall streets.

case of the King vs. D. Dunlop. His Honor granted the application so far as the witnesses should be subpoenaed, but reserved the question of paying the cost until after the trial next Friday at MacLeod, when Mr. Putnam, the defendant's solicitor, has had time to move for the costs to be paid by the Province.

At the close of the case and before court adjourned, Mr. L. H. Putnam, in behalf of the defendant, for the conveyance of the property, made a formal application to His Honor Judge McNeil asking that the September sittings be adjourned to some time in the near future as all the cases could not be disposed of at the present time. Judge McNeil intimated that next year the September sittings would be held later in the month of September, perhaps the last week in the first.

We were pleased to see all our local solicitors present in court fully gowned. It is a pleasure to see them dressed up once in a while in their black clothe gown and white tie.

We now have six lawyers practising in the Blairmore district, namely, L. H. Putnam, Harry C. Moore, T. Ede, H. Howe, Roberts and Campbell & Gillis, and when these gentlemen all line up in court ready to participate, there must be some fighting going on that we know nothing about. They are evidently making a living by the looks of the show list of cases. Two years ago Mr. Putnam, Mr. Ede and Mr. Moore were the only ones sitting in court.

The increase shows how rapidly our glorious district is increasing.

The Department of Neglected Children

The work of the Department of Neglected children since January 1st, 1913, has proved doubtful that of the present year will be no better than the corresponding previous year.

The number of cases dealt with has been enormous.

The Department has been fortunate in finding foster homes for practically all the children who have come under the care of the Department from various places in the Provinces.

167 children have been placed in probation in various places, and the record shows that it is a significant fact that it has only been necessary to place a child in a home and send it to go to a home in another state during the past year. This record is the best in probation of any place on the American Continent.

Probation has proved its success and it is not costly. The Department of Neglected Children, unfortunately is a non revenue producing department, and must be considered as an expense which has to be met.

Fines are not possible under the children's Protection Act except in case of interference, and as the cases are usually adjusted without going into court, therefore, soon, it becomes necessary to explain to the general public that the work being run in this department is heavy, and that the returns in the way of fines, against this fact is the fact, every child deals with means an asset of \$1000 to the state on the basis established by the Immigration Authorities.

On the other hand, if the children are allowed to degenerate into criminals, the cost will be from four to five thousand dollars for the state to care for each criminal in Penal Institutions.

It is the preventative nature of the work which gives this department its great value to the Province.

The Children's Protection Act of Alberta, is the best of its kind in use on the American Continent, and its results show a good record in saving thousands of thousands of lives of children, who are living in filth of debauchery and crime.

Good roads, and good public works, are essential, but what use are any of them? unless good citizens are developed to properly enjoy and use them. The great object of this work is to produce good and upright citizens.

The ramifications of this department turn intonumerable channels in the conduct of the work.

It is understood that in most cases, the difficulties are adjusted without going into court.

Local Children's Aid Societies and families have been organized in various places, and those who are interested and would wish to join the local branch, or organize a society, are requested to communicate with the Superintendent of Neglected Children, Old Parliament Building, Edmonton.

A fire originated in the building owned by the 41 Market Co. at Frank on Monday morning and ere it was extinguished it did considerable damage to the interior of the building. The Frank fire apparatus was commissioned in quick time, and the Blairmore emergency brigade were almost as soon on hand with an effective stream from nearby hydrants. How the fire originated is unknown. Shortly after the firemen had quit the scene, a second outbreak occurred necessitating the response of fire chief Whittle and his men.

Thomas P. Cyr, the Lake City magnate, has taken unto himself an auto of ancient type. The machine's quite a novelty. It can be operated by gasoline, but "Tom" claims it is a great speed on Ginger Pop fuel. "Tom" as a partner with H. J. Matheson knows a good thing when he sees it. He sees in Lake City the makings of one of the most ideal summer resorts of this last great west, and if his plans are carried fully into effect the holiday seekers will find at Lake City the last word of equipment and accommodation

**Macleod Rancher
Committed Suicide**

Macleod, Sept. 8—Word was received at Macleod this morning to the effect that John Patterson, stock man of this district, had committed suicide at the John Franklin ranch near Standoff, by shooting himself. The tragedy took place last night, but as the ranch is quite a distance from Macleod very few details of the suicide are available at yet.

Mr. Patterson was about fifty years of age and until recently has held the position of stock and brand inspector for Southern Alberta, and his large experience with the cattle business highly qualified him for the position. He recently, however, purchased an interest in the Franklin ranch and had entered partnership in the horse business with Mr. Franklin. Mr. Patterson was also prominent in the management of the Calgary Stampede and was also an official at the one held in Winnipeg recently. He was considered fairly well to do by all those who knew him and was supposed to be from trouble so that his friends in this district are at a loss in finding a motive for this act, not.

CAUGHT A BAD COLD

Last winter my son caught a very cold and the way he coughed was something dreadfully writers write.

We thought he was going into consumption. We thought he was going into consumption. We thought he was going into consumption. Caught a cold and the one bottle of Cough Syrup he bought and curst his cold and curst his cold and curst his cold completely. For sale by all dealers.

Frank

W. J. McGowan arrived back from Calgary Wednesday.

J. Johnson, of this town, was called away to Regina this week, where his brother is seriously ill.

The next meeting of B.C. Engineers will be held next Thursday night at the usual time and place, Sept. 18.

V. Bourdum, from the coal mining office, left for Cranbrook on Wednesday to take in the polo game along with several others.

Mrs. M. Sharrett, who is a visitor with Mrs. Gleaves, has been spending a week at Lundbreck to spend a week's holiday there with friends.

We regret to announce the sudden departure of Mrs. Gleaves, of England, who has been on a visit to her son, Mr. W. H. Gleaves, of John Street, whose health has been failing him, but he is able to return home through sickness at the other end. We hope the tide has turned in his favor as he arrives home and with her a pleasant journey.

suggested by the modern genius. It is only a matter of a short period now when a complete aerial tramway and monoplane service will be in operation between the Lake City and Blairmore, automobiles will co-operate with an electric car system in conveying the thousands of holiday seekers who are tired and worn from the excitement and busy everyday life of the Metropolis who desire to lay off by the lake to bathe in the summer breezes, shuttle past the hills, will be constructed, motor launches and sail boats will add materially to the importance of the holiday convenience. Besides all this the wireless telegraph and telephone will be placed at the disposal of guests without the users being required to pay for the monopolization of toll's pure air. Parks are to be laid out on New York plan, but the American eagle will not be permitted to perch upon the roof of Uncle Tom's cabin. Time must only tell the tale of what the future of Lake City will bring forth. We have witnessed the rest of the Crows' Nest Pass rise from the soil to a condition of great development; now we shall have to hope for the outcome of the promotions of the Lake City pioneers. The Dominion Post Department has already been figuring on subsidizing Mr. Tyr for conveying the Coleman Bulletin to Sentinel and other thickly populated parts of the district.

Bellevue Happenings

Mr. Sheldon has moved to Geo. Knowles house.

Pete Ubertino is building a kitchen onto his house.

Mr. Harper, of Fernie, is spending a few days in the camp.

Rev. Baker, of Livingston, was a Bellevue visitor this week.

Robert Riddle and family are occupying their new residence.

Jack Barwick has been elected vice president of the local union.

Mrs. John Crawford has moved up from Cranbrook to join her husband.

Mrs. J. B. Rudd went up to Pincher on business on Monday evening.

Mrs. J. R. and Mrs. J. D. Mac Donald were Coleman visitors on Saturday.

Mrs. Wm. Van Busker, of Fernie, is visiting the camp.

George Christie is working at No. 2 mine, owing to the slackness of business at the time kiln.

The Alberta Government mine rescue car is a Bellevue visitor this week. Bill Power in charge.

Thomas Hamington and family have moved up from Fernie and are residing in the old Hart place.

Tom Stephenson is commencing classes in mine surveying, and will be glad to meet prospective students.

Mr. and Mrs. Windsor of the Union Bank, have left for a three month vacation to Eastern points.

Jack Stone won distinction as a life saver at Rock Creek on Sunday last. A fisherman somehow got stuck in the hole and was helpless until rescued.

Bellevue lost the Unity Cup in their game at Coal Creek last Saturday meeting defeat by a score of 2-0. Our only hope of landing any silverware this season is now the Crane Cup which looks pretty safe.

Charlie Garrington has left the camp for his former home in Washington. Charlie has been here since the settlement of the strike and has made many friends.

He was vice president of Local 431 U. M. W. A.

The children of Bellevue were disappointed by another delay in opening the school this week.

Children and teachers alike are anxious to get to work after their long holiday. Public notice will be made as soon as the school building is ready to be occupied.

There is a movement on foot to provide a series of entertainments for the benefit of Bellevue during the winter months. This movement has come out of a sermon preached in the church last Sunday evening on the influence of a dead town on health and morality. Bellevue like some other Towns has suffered from an overabundance of knockers. One knocker does more to hurt a town than ten honesters can do to help it. The knocker is a parasite on human happiness and ought to be treated like any other pestilence. There is no reason why Bellevue shouldn't be the liveliest place on earth. Let's get after it and make it so. Let the cluster of the knockers waste itself on the desert air.

Briefs

The inauguration of Weyburn as a city took place Wednesday, Sept. 10, the streets being crowded and prominent officials of the Province and representative officials from sister cities took an active part in the proceedings.
